WE NEED A DOCTOR IN THE HOUSE!

ENSURING HEALTH FOR ALL

Healthcare is a right and should be equitably accessible and affordable for all Oregonians. I am honored to be considered to be appointed to Representative Mitch Greenlick's seat for the remainder of his term to support his vision and legacy of working to bring healthcare to all. We need a healthcare system that puts Oregonians first, not insurance companies.

"No candidate is better equipped to ensure every Oregonian has access to affordable, comprehensive, high-quality care, including preventive and mental health services."

-Governor Barbara Roberts

"Maxine is uniquely qualified to defend our right to full reproductive health care services for all Oregonians." -Multnomah County Commissioner Dr. Sharon Meieran

SUPPORTING ALL FAMILIES

"We need advocates like Maxine who will fight for quality education from universal pre-K to affordable post-secondary options for all." -Beaverton School Board Member Anne Bryan

"Maxine will be a champion for our unions and fight for truly affordable housing and solutions to homelessness." -State Representative Jeff Barker

PROTECTING OUR ENVIRONMENT

Climate change is impacting our environment and our health. We must rapidly reduce dependence on fossil fuels while creating good-paying green jobs for Oregonians.

"As a lung and ICU doctor, Maxine understands how important clean air is to community health." -Erika Maria Mosesón, MD, Clean Air and Tobacco Control Advocate

Pamela M. Kislak

Statement of Candidacy:

I have volunteered for the Maxine for Oregon campaign since its inception last year, and strongly believe Dr. Maxine Dexter is the right choice to represent District 33 in the Oregon House of Representatives. The May 2020 primary outcome clearly demonstrates that voters agree. Although I would be honored to serve our district, if nominated to fill the current legislative vacancy I will respectfully request that the County Commissioners for Multnomah and Washington counties appoint Dr. Dexter to fill the vacancy effective now.
